

New CTP Replacement Parts for Heavy Equipment

CTP TRACK ROLLERS

Maximum Performance

CTP offers a wide range of track rollers for the most popular machine models. All CTP rollers are engineered with forged alloy steel which undergoes a proper heat treatment allowing durability for wear and impact. They are produced with cutting edge processes such as rotary friction welding robots or induction heat treatments to ensure proper hardness levels. CTP rollers are highly praised in the market as a product with a long wear life, and impact resistance.
