

New CTP Replacement Parts for Heavy Equipment

CTP AIR FILTERS

Provide a perfect seal and ensure the flow of air with Air Filters CTP!

CTP Primary & Secondary Air Filters

The open and closed caps end caps are fabricated using a polyurethane material that is highly elastic and provides a high resistance to vibration and impact. The perfect union of the end caps with the filter paper element makes for uniform seal that does not permit any bypass of incoming air between these surfaces. The end caps are adhered to the filter element chemically with a soft elastic material providing the benefit of a perfect seal and assuring the flow of air thru the filter medium.
