

CTP Split Flanges

CTP Split Flanges -

Flanges are connections used in fluid power systems. Code 61 flanges are referred to as standard. They are used for pressure between 3000 and 5000 PSI depending on the size. Code 62 flanges are rated for 6000 psi for all sizes. There also is a series of flanges that have a thicker flange head that are also rated at 6000 psi for all sizes. All are available from CTP.

Split Flange Half Code 61 -

Part #	Split Flange 1/2
1P4576	3/4
1P4577	1
1P4578	1 - 1/4
1P4579	1 - 1/2
1P4582	2

Split Flange Half Code 62 -

Part #	Split Flange 1/2
1244286	1/2
1244287	3/4
1244288	1
2T3001	1 - 1/4
2T3000	1 - 1/2
1244289	2

Thick Flange Half -

Part #	Split Flange 1/2
1P5765	3/4
1P5766	1
1P5767	1 - 1/4
5P8077	1 - 1/2
